#	Variable / Field Name	Field Label <small>Field Note</small>	Field Attributes (Field Type, Validation, Choices, Calculations, etc.)
Instrument: Screening form (screening_form) Enabled as survey ^ Collapse			
1	record_id	Study ID	text
2	ts_0	Timestamp for the screening form	text (datetime_dmy), Required Field Annotation: @HIDDEN @NOW_UTC
3	inclusion_yn	Do you intend to make a report on a patient who has a presumptive or lab-proven diagnosis of COVID-19 and has a current or past medical history of an invasive malignancy? Invasive malignancy is defined as any solid tumor other than in situ cancers (stage 0), and any hematologic malignancies other than precursor hematologic neoplasms (e.g., MGUS or monoclonal B lymphocytosis of undetermined significance).	yesno, Required 1 Yes 0 No
4	exclude <small>Show the field ONLY if: [inclusion_yn] = '0'</small>	We're sorry, but this survey is intended to report on patients with COVID-19 and cancer. Non-melanoma skin cancer, in situ cancers, and premalignant conditions are excluded. Please click the button to exit the survey.	radio, Required x Exit the survey Stop actions on x
5	previous_report <small>Show the field ONLY if: [inclusion_yn] = '1'</small>	Have you previously reported this patient to this or any other registry?	radio, Required 1 No 2 This registry 3 Another registry
6	this_registry <small>Show the field ONLY if: [previous_report] = '2'</small>	If you have additional follow-up information to add to an existing report, you should return to that report and update the content.	descriptive
7	registry_other <small>Show the field ONLY if: [previous_report] = '3'</small>	Please feel free to fill out the survey. In order to help us avoid duplication with other complementary efforts, please optionally list the names of the other registries that you have reported to.	text
8	ccc19 <small>Show the field ONLY if: [inclusion_yn] = '1'</small>	Are you reporting on behalf on an institution participating in the CCC19 consortium?	yesno, Required 1 Yes 0 No
9	ccc19_exclude <small>Show the field ONLY if: [ccc19] = '0'</small>	We're sorry, but this survey is currently open only to respondents who are at a CCC19 participating institution. The attached FAQ provides some details about getting involved as a participating institution. If you would like your site to get involved, please contact us through the CCC19 website.	descriptive, Required
10	ccc19_exclude_2 <small>Show the field ONLY if: [ccc19] = '0'</small>	Please click the button below to exit the survey.	radio, Required x Exit the survey Stop actions on x

Field Annotation: LOINC:63929-4; Terminology: NCIT

233	cancer_type_oth_5 Show the field ONLY if: [cancer_type_5] = 'C132146' or [cancer_type_5] = 'OTH_H' or [cancer_type_5] = 'OTH_S' or [cancer_type_5] = 'C27134'	Please specify cancer type	text																								
234	multiple_ca_more Show the field ONLY if: [multiple_ca] = '1'	Multiple malignancies - further details. Please provide further details, including whether the primary cancers were synchronous or metachronous, the types of the multiple primaries, etc. Do not record any PHI in this field. As a reminder, this includes all elements of dates other than year.	notes																								
235	breast_biomarkers Show the field ONLY if: [cancer_type] = 'C4872' or [cancer_type_2] = 'C4872' or [cancer_type_3] = 'C4872' or [cancer_type_4] = 'C4872' or [cancer_type_5] = 'C4872'	Breast cancer specific: What is the breast cancer phenotype? Check all that apply. Instructions: Oncology notes: (Medical, Surgical, or Radiation oncology notes): Information obtained from the most recent oncology note would suffice. Ideally, data entry is from the medical oncologist note, but if not available surgical or radiation oncology notes may also have the details of the information. Confirmation with pathology report is not required (unless the clinic notes fails to comment on both hormone receptors as well as HER2 status). Pathology Reports: If the most recent note is unclear, proceed as follows for assessing pathology reports: For patients with stage IV or metastatic breast cancer, use the receptor information from the most recent biopsy of the metastatic site, if unavailable, can use information from primary surgery or initial diagnostic biopsy. For stages I-III breast cancer, use information from surgery if available, otherwise use information from initial diagnostic biopsy. Hormone receptor (HR) status: Hormone receptor (HR) can refer to Estrogen receptor (ER) and/or progesterone receptor (PR). Any estrogen-receptor (ER) or progesterone-receptor (PR) expression above 1% on immunohistochemistry (IHC) is considered positive. HER2 Status: Positive: HER2 is considered positive if described as "overexpressed" or "3+ positive" by IHC or "amplified" by FISH. Of note 0 or 1+ by IHC is considered negative. If IHC is described as 2+, please refer to FISH results or final interpretation for the HER2 results. Positive FISH results (described as positive or amplified) always supersede IHC results, if there are discrepant results between the two.	checkbox <table border="1"> <tr> <td>ER</td> <td>breast_biomarkers__er</td> <td>Estrogen and/or progesterone-receptor positive (ER or PR positive)</td> </tr> <tr> <td>HER2</td> <td>breast_biomarkers__her2</td> <td>HER2 overexpressing (HER2 positive)</td> </tr> <tr> <td>TNBC</td> <td>breast_biomarkers__tnbc</td> <td>Triple-negative breast cancer (ER, PR, and HER2 negative)</td> </tr> <tr> <td>99</td> <td>breast_biomarkers__99</td> <td>Unknown</td> </tr> </table>	ER	breast_biomarkers__er	Estrogen and/or progesterone-receptor positive (ER or PR positive)	HER2	breast_biomarkers__her2	HER2 overexpressing (HER2 positive)	TNBC	breast_biomarkers__tnbc	Triple-negative breast cancer (ER, PR, and HER2 negative)	99	breast_biomarkers__99	Unknown

244	<p>treatment_modality</p> <p>Show the field ONLY if: [on_treatment] = '1' or [hx_treatm ent] = '1' or [hx_treatment] = '2'</p>	<p>Anti-cancer treatment modality. Check all that apply. You should check any modality that was given as part of the most recent course of therapy, not treatments given in the more distant past. For example, if a patient received concurrent chemoradiation, check cytotoxic chemotherapy and radiotherapy. If a patient received neoadjuvant chemotherapy followed by surgery, you should check cytotoxic chemotherapy and surgery. When in doubt, please provide additional details in the free text boxes below. Definitions Cytotoxic chemotherapy: drugs that have direct toxic effects on the cellular reproduction apparatus (e.g., anthracyclines, taxanes, vinca alkaloids, etc.). Immunotherapy: drugs or cellular therapy that primarily act through upregulation of the immune system (e.g., immune checkpoint inhibitors, allogeneic hematopoietic stem cell transplant, BiTEs, CAR-T-cells). Endocrine (Hormone) therapy: drugs that inhibit, mimic, or replace endocrine processes (e.g., tamoxifen, aromatase inhibitors, octreotide). Targeted therapy: drugs that interfere with specific cellular proteins through blockade (e.g., monoclonal antibodies) or disruption (e.g., tyrosine kinase inhibitors). Note that monoclonal antibodies that do not have a direct immunostimulatory effect (e.g., rituximab, bevacizumab, etc.) should be selected as "Targeted therapy", as should immunomodulators (e.g., lenalidomide) and drugs that target specific cellular proteins (e.g., venetoclax, ibrutinib).</p>	<p>checkbox, Required</p> <table border="1"> <tr> <td>685</td> <td>treatment_modality__685</td> <td>Cytotoxic chemotherapy</td> </tr> <tr> <td>694</td> <td>treatment_modality__694</td> <td>Immunotherapy</td> </tr> <tr> <td>58229</td> <td>treatment_modality__58229</td> <td>Targeted therapy</td> </tr> <tr> <td>691</td> <td>treatment_modality__691</td> <td>Endocrine (Hormone) therapy</td> </tr> <tr> <td>695</td> <td>treatment_modality__695</td> <td>Radiotherapy</td> </tr> <tr> <td>14051</td> <td>treatment_modality__14051</td> <td>Surgery</td> </tr> <tr> <td>45186</td> <td>treatment_modality__45186</td> <td>Transplant/Cellular therapy</td> </tr> <tr> <td>45215</td> <td>treatment_modality__45215</td> <td>Intravesicular therapy (e.g., BCG)</td> </tr> <tr> <td>OTH</td> <td>treatment_modality__oth</td> <td>Other</td> </tr> </table> <p>Field Annotation: Terminology: HemOnc</p>	685	treatment_modality__685	Cytotoxic chemotherapy	694	treatment_modality__694	Immunotherapy	58229	treatment_modality__58229	Targeted therapy	691	treatment_modality__691	Endocrine (Hormone) therapy	695	treatment_modality__695	Radiotherapy	14051	treatment_modality__14051	Surgery	45186	treatment_modality__45186	Transplant/Cellular therapy	45215	treatment_modality__45215	Intravesicular therapy (e.g., BCG)	OTH	treatment_modality__oth	Other

269	stage	Stage at cancer diagnosis. If the patient has multiple primaries, please report on the cancer that was most recently treated. If the patient has a solid tumor but you cannot determine an exact stage, try to determine whether the disease was localized or disseminated at diagnosis. Clues to localized disease at diagnosis include definitive therapies such as lumpectomy for breast cancer, colectomy for colon cancer, and prostatectomy for prostate cancer. If the patient was initially diagnosed with in situ cancer but then developed invasive disease, please report the stage at the time of invasive disease diagnosis. For hematologic malignancies that are not anatomically staged (e.g., leukemias, myeloma), select localized or disseminated based on the distribution of the disease. For example, multiple myeloma would be disseminated, whereas a solitary plasmacytoma would be localized. Most leukemias are considered disseminated at diagnosis, with very few exceptions.	radio <table border="1"> <tr> <td>1004-0</td> <td>0 (in situ)</td> </tr> <tr> <td>1</td> <td>I</td> </tr> <tr> <td>2</td> <td>II</td> </tr> <tr> <td>3</td> <td>III</td> </tr> <tr> <td>4</td> <td>IV</td> </tr> <tr> <td>764-1</td> <td>Localized</td> </tr> <tr> <td>764-7</td> <td>Disseminated</td> </tr> <tr> <td>OTH</td> <td>Other</td> </tr> <tr> <td>99</td> <td>Unknown</td> </tr> </table> Field Annotation: Terminology: NAACCR	1004-0	0 (in situ)	1	I	2	II	3	III	4	IV	764-1	Localized	764-7	Disseminated	OTH	Other	99	Unknown
